Webex Room Kit Series

Flexible video collaboration for the modern workplace

Webex Room Kit Series offer powerful collaboration solutions that integrate with flat panel displays to bring more intelligence and usability to your huddle, small, medium, large and specialized meeting rooms.

These integrated video bars and room collaboration kits deliver the unmatched video and audio experience that help your workers stay connected with peers, customers and partners, while enhancing productivity and collaboration for in-person and remote attendees. In addition, new capabilities enable even smarter meetings, smarter presentations, and smarter room and device integrations—further removing the barriers to usage and deployment of video collaboration.

Benefits

Powerful collaboration solutions
Integrate with one or multiple flat panel displays to bring more intelligence and usability to your huddle, small, medium, large and specialized meeting rooms.

Smart presentations
Supports single or multiple screens and content sources, wireless sharing, and 4K content make for great presentations; see whiteboard content and annotations shared from other Webex devices.

Smart rooms
People count for usage metrics and resource allocation; tight integrations with screens to enhance user interactions; APIs and macros allow meeting personalization.

Smart meetings
Powerful cameras deliver intelligent viewing capabilities, such as automatic framing and speaker tracking; AI capabilities enable automatic noise suppression and Machine Learning-based noise removal to reduce meeting interruptions and voice-activated controls for easy dialing.

Flexibility
Built for both on-premises and cloud deployment, protecting your investment. Paired with Webex Room Navigator, they bring augmented intelligence to every room with intuitive conference controls, room booking, meeting room controls and digital signage (not available for Room USB).

Room USB

A plug-and-play video bar featuring seamless USB passthrough, wireless content sharing, full HD video, and crisp audio for the ultimate BYOD meeting experience.

Room Bar

A single-codec, powerful video bar designed for huddle spaces and meeting rooms with up to seven people. It features a wide-angle lens camera, stereo speakers, built-in noise cancelling microphones, external microphone input, dual-screen support, people focus and speaker tracking, powerful USB-C and HDMI passthrough, and third-party video interoperability to support immersive, multi-platform meetings.

Room Kit

An integrated video bar designed for medium-sized workspaces with up to 10 people. It features a smart camera, built-in loudspeaker and microphone system, and is equipped with AI features, wireless content sharing, and advanced room and device integrations.

Room Kit Plus

Features the powerful Codec Plus and intelligent Quad Camera bar, accommodating larger and deeper rooms of up to 14 people. It is also available as integrator bundle including flexible pan-tilt-zoom cameras for custom AV deployments and presenter tracking.

Room Kit Pro

The most powerful room kit designed for the largest rooms and specialized conferencing scenarios such as boardrooms, auditoriums and AV integrations where multiple screens, cameras, content sources and peripherals may be required. It comes with Codec Pro and the intelligent Quad Camera bar, while also supporting flexible pan-tilt-zoom cameras for custom deployments and presenter tracking.

Bringing powerful collaboration to all your meeting rooms

The Webex Room Kit Series offers video innovation in a box, bringing more intelligence and usability to your meeting rooms. The products are rich in functionality and experience but are priced and designed to be easily scalable to all of your conference rooms—whether registered on the premises or to the Webex Cloud. The Room Kits are hardware optimized to run on a cloud platform. They offer great end user and admin experiences, in an easily manageable way.
